How to get to B&B Giuliva from the port of Capri

Please note: the B&B does not have a reception. Let us know when you will arrive, and we will make sure we are ready and waiting for you at the family’s bar, the Bar Grotta Azzurra, where we will check you in and give you your room keys.

You can leave your luggage at the bar, both before check-in and after check-out. You can easily reach the Bar Grotta Azzurra by following the directions below.

Taxi: you'll find a line of Capri’s typical open top taxis waiting for customers at the port. The taxi ride will take about 15 minutes and cost circa 30 euro. The taxi driver will be able to drop you off directly at the gate of the B&B.

Bus: you can purchase tickets for the bus and funicular train from the ticket office to the right of the docks. The bus stop from where to catch buses direct to Anacapri is just a few meters away from the ticket office. If you are coming to Capri in low season, bear in mind that there will be fewer direct buses from Marina Grande to Anacapri at this time of year and, if you need to wait a long time for the next bus, it may be worth your while taking the funicular train to Capri and catching a bus to Anacapri from there instead.

Once you are on the bus to Anacapri, resist the temptation to get off when the driver calls out “Anacapri” and get off 3 stops later instead, at the Bar Grotta Azzurra. From the bus stop, walk 50 meters or so down the road to reach the junction between Via Pagliaro and Via Giuseppe Orlandi and the Bar Grotta Azzurra. You can check-in and collect your room keys here.

Hydrofoils and ferries to Capri depart from Naples and Sorrento.
In the summer months, sea crossings are also available from Positano, Amalfi, Salerno and the island of Ischia.
Times of crossings are subject to variation and it’s always a good idea to check the hydrofoil and ferry schedule before you travel to the port.

There’s no need to book ferry or hydrofoil tickets in advance. This said, if you are traveling in the peak holiday months of July and August, you can expect to have to queue significantly longer before boarding.
For much of the year, you will be not able to take your car to Capri. In any case, the island is largely pedestrian and a car is of very little use here.
